Seagen Clinical Trials

Our mission is to discover, develop and commercialize transformative medicines that make a meaningful difference for people with cancer.

From Promising Science to Patient Care

Our clinical trial efforts are designed to advance innovative therapies for solid tumors and blood-related cancers.

Seagen®

Seagen is dedicated to our goal of ensuring that all patients are represented in our clinical trials. It is important to Seagen that the therapies we make improve the lives of all people with cancer, including those who have been historically underrepresented due to their sex, race, ethnicity, or age.

Seagen is a US registered trademark of Seagen Inc. © Seagen Inc., Bothell, WA 98201 All rights reserved.
