FINDING CURES STARTS WITH YOU

LYMPHOMA RESEARCH FOUNDATION

— 25TH ANNIVERSARY GALA —
dear friends,

We welcome you to the Lymphoma Research Foundation’s (LRF) 25th Anniversary Gala, a special evening to recognize this year’s honorees and to celebrate more than two decades of innovation and progress. So much has been accomplished during this time to further our mission of eradicating lymphoma and serving those touched by this disease, and we thank you for being a part of this milestone event.

Tonight, we are delighted to recognize our honorees for their tremendous contributions to the field of lymphoma. Thomas M. Habermann, MD, will receive LRF’s Distinguished Leadership Award for his extensive contributions to lymphoma research, commitment to patient care and leadership within LRF. The Foundation will present its Corporate Leadership Award to AstraZeneca, a science-led biopharmaceutical company whose discovery and development of innovative therapies to serve patients impacted by a cancer diagnosis is not only their mission, but is also at the heart of what they do. Lastly, we will recognize the Heroes Among Us, an opportunity for our supporters to recognize the heroes in their lives, as a testament to the incredible people who are a part of our lymphoma community.

This year’s gala is a special culmination of the past and present, that would not be possible without you. We thank each of you for the commitment you have made not only to funding life-saving lymphoma research, but also to serving survivors and caregivers with innovative programs and tools that mean the most when facing a lymphoma diagnosis. It is because of you that our first 25 years have been so successful, and together, we will ensure that the next 25 will be just as impactful. Thank you for being a part of our organization and sharing the same vision that we all care for so deeply.

Sincerely,

Steven Eichberg
Chair, Board of Directors, Lymphoma Research Foundation

Meghan Gutierrez
Chief Executive Officer, Lymphoma Research Foundation

THOMAS M. HABERMANN, MD

Upon completing his Residency and Hematology Fellowship at Mayo Clinic, Dr. Thomas M. Habermann joined the Mayo Clinic staff in 1985. His storied career at the Mayo Clinic has contributed to decades of improved patient outcomes.

Dr. Habermann led the Mayo Clinic Lymphoma Group for 14 years and founded the Mayo Clinic Lymphoma Database, resulting in 34 years of clinical observations. His work supported publications regarding 21 new drugs in clinical trials, including five drugs before their FDA-approved indications. Additionally, Dr. Habermann served as the principal investigator of the North American trial of R-CHOP in diffuse large B-cell lymphoma and the co-investigator of a low-grade lymphoma rituximab study. Each of these studies contributed to the FDA approval of rituximab, a lifesaving therapy used worldwide.

Dr. Habermann is an author of more than 350 papers and has collaborated with leading experts in lymphoma, including James Cerhan, M.D., Ph.D. in clinical epidemiology and genomic analyses, Margaret Shipp, MD, at the Dana-Farber Cancer Center and the Broad Institute in pathway analyses and whole-exome sequencing in diffuse large B-cell lymphoma.

He was the Mayo Clinic ECOG Mayo U-10 Grant principal investigator (1993-2014) and is currently responsible for ECOG-ACRIN activities on the Mayo Clinic NCTN Grant (2014 to present). In this role, Dr. Habermann serves as the Chair of the Nominating Committee. He is a co-investigator on a University of Iowa/Mayo Clinic Lymphoma Specialized Program of Research Excellence (SPORE) grant, a Co-Director of the Clinical Trials Core (2002 to present), and a co-investigator on the Lymphoma Epidemiology LEO Consortium grant (2015 to present).

In 2005, Dr. Habermann joined the Scientific Advisory Board (SAB) of the Lymphoma Research Foundation (LRF). During his tenure, he has served as Chair of the Nominating Committee and Chair of the SAB. Additionally, Dr. Habermann served as the Chair of the Minnesota Lymphoma Workshop for 17 years. He was on the Adolescent and Young Adult LRF workshop organizing committee and the Co-chair of the International Marginal Zone Lymphoma Scientific Workshop in 2019.
AstraZeneca is a global, science-led biopharmaceutical company that focuses on the discovery, development and commercialization of prescription medicines, primarily for the treatment of diseases in three therapy areas — Oncology, Cardiovascular, Renal & Metabolism and Respiratory & Immunology. AstraZeneca operates in over 100 countries and its innovative medicines are used by millions of patients worldwide. For more information, please visit www.astrazeneca-us.com and follow us on Twitter at @AstraZenecaUS.
Born and raised in the UK, Harry Santa-Olalla began his fundraising career in London. He worked closely with many of the UK’s largest not-for-profits on many of their most high-profile campaigns. Identifying New York as the fundraising capital of the world, he “hopped the pond” to burst onto the NYC gala scene in 2012 and has not looked back since.

Mr. Santa-Olalla now supports many of the biggest not-for-profits stateside, both as a pre-campaign consultant and on stage during the events themselves as the auctioneer. He prides himself on his unique ability to tastefully captivate his audience with his integrity and sharp wit, uniting people on a common fundraising goal.

THE FUTURE OF SCIENCE IS HERE

LEARN MORE AT: GENE.COM
Kite, a Gilead Company, is dedicated to achieving one of the most ambitious goals of the 21st century: curing cancer. It’s at the heart of everything we do from early research to product development.

WWW.KITEPHARMA.COM

Kite congratulates the Lymphoma Research Foundation on 25 years of service to people living with lymphoma.
Dr. Morton Coleman is our “Hero Among Us” for his relentless pursuit of his purpose in life — to better the lives of those around him. As a recognized expert in his field of medicine, Mort gives of himself tirelessly and selflessly to patients and colleagues alike. He is available 24/7, making his personal cell number available to anyone who might need him and answering every message before retiring for the night.

Along the way, he has saved countless lives (including mine) through his uncanny ability to devise exactly the right course of treatment for each individual patient. There is nothing more we could hope for in a medical professional or human being.

Our congratulations and best wishes to Mort and all the other heroes, most of whom go unrecognized to the public, who have helped those with lymphoma and their families.

Steve Prince and Family
We honor Nancy Adel and Barry Pollack for their courage, intelligence and steadfast partnership in again staring down lymphoma.

We honor Barbara and Jerry Freundlich for their perseverance, foresight and commitment to all of us.

We honor Dr. Carol Portlock for her presence, wisdom and friendship, 21 years and counting.

Susan & Jeffrey Sussman
Congratulations on the first 25 great years — now let us work to make the next 25 even greater.

The Werner Family
Congratulations

congratulate tonight’s honorees
and thank them and the LRF staff for making a
difference in the lives of those touched by lymphoma.

Lynn and Mike Froy
Since entering the uncharted and dangerous waters of a Lymphoma diagnosis almost 12 years ago, there has been a constant and steady beacon of light and hope. Like the lighthouses of the world that give so many ships comfort and light during stormy times and ultimately guide them to a safe return, we can think of no better analogy in describing this very special person we wish to honor.

We would like to thank from the bottom of hearts our very own special giver of light and hope, 

Dr. Michael Williams,

for seeing us through this ever-changing journey.

Bob & Laura McAuley
Novartis Oncology proudly joins Lymphoma Research Foundation in celebrating the 25th Anniversary Gala

Your dedication to helping patients with lymphoma is applauded.

Connecting with patients as individuals with unique needs helps us transform the way people live with cancer. This connection energizes us to accelerate the development of medicines with potential for greater patient benefit.
The Lymphoma Research Foundation Board of Directors is delighted to recognize

MICHAEL WERNER

AS OUR HERO

for his 13 years of service, and counting, to the LRF Board of Directors, including four years as Chair. We are inspired by his incredible dedication and commitment to serving those touched by this disease.

Thank you for all that you have done and continue to do, Michael.
TG Therapeutics is pleased to support the Lymphoma Research Foundation’s 25th Anniversary Gala.

Congratulations to Dr. Thomas M. Habermann in receiving the Distinguished Leadership Award and Congratulations to all the Heroes Among Us!

The Lymphoma Research Foundation notes with sorrow the passing of Eric Cohen, a member of the Foundation’s Board of Directors. Eric was a man of extraordinary character, a respected Director, trusted advisor and our friend. Eric’s passion for life, sincerity and kindness earned him the respect and admiration of all his colleagues.

The entire LRF family extends its deepest sympathies to Eric’s wife, Stacey, and their four children, and joins with them in mourning his loss.
To the entire
LYMPHOMA RESEARCH FOUNDATION STAFF:

Thank you for your heroic efforts to support the Foundation and all those we exist to serve during these extraordinary times. You are incredible professionals and colleagues, and we are all fortunate that you have chosen to dedicate your talents to the Lymphoma Research Foundation and its mission.

With gratitude,
Meg Gutierrez
Leonard M. Rosen

NOVEMBER 19, 1930 – APRIL 16, 2014

Leonard Rosen was the longtime Chair of LRF’s national public policy committee. He utilized his legal expertise to advance policy and legislative initiatives that have — and will continue to — benefit patients. Leonard’s legacy lives through his family, especially his children, who continue to advance his advocacy work. As we celebrate our 25th Anniversary, we pause to remember Leonard and the incredible achievements we accomplished together.
DEAR DRS. HORWITZ & SAUTER,

My family and I are immensely grateful to you and all the great people on your teams for the outstanding treatment and care you provided throughout my time in your care. You always instilled a great deal of confidence and inspired us to be positive and energetic at all times during the long and complex journey. Your depth of knowledge and expertise was shared with us in very comprehensible ways, and your teams reflected your leadership in wonderfully warm and caring ways to us. The collaboration between yourselves and your teams was seamless, and every part of our journey with you and MSK was made as smooth and comfortable as it could be.

All of you are true heroes; your impact on my life and that of my family is immeasurable, and we know that you all make a difference in the lives of so many more people. Thank you from the bottom of our hearts.

Madhvi & Ramesh Subrahmanian
IN MEMORY OF

Florence Werner

The Lymphoma Research Foundation mourns the loss of longtime supporter Florence Werner. Florence was one of the Foundation’s greatest champions, always focused on supporting the Foundation and advancing its mission. Her sense of humanity, goodness and dedication to the lymphoma community will be deeply missed. Florence was wife to Robert Werner, LRF Director Emeritus, and mother to Michael Werner, Immediate Past-Chair of the LRF’s Board of Directors.

Our deepest sympathies are extended to Robert, Michael and the entire Werner Family.
TO DR. THOMAS HABERMANN
AND
ERROL & GLADYS COOK,

Congratulations on this richly deserved honor and many thanks for your service to LRF.

Morton Coleman, MD and
Mark Pasmantier, MD
Congratulations and thank you to the LRF for 25 years of contributions to the lymphoma community. Your support of the researchers, patients and caregivers has and will continue to make a difference.

Merle & Peter Hirschmann
In recognition of Dr. Thomas Habermann’s Distinguished Leadership Award

— Drs. James and Jane Cerhan —

Thank you, Dr. Ann Zimrin of University of Maryland’s Greenebaum Comprehensive Cancer Center, for your individualized & compassionate care throughout the past 2 decades.

With gratitude always,
— Sarah G. —

In honor of Dr. Leo Gordon. Best wishes to Dr. Leo Gordon for his support with LRF.

— Marcia and Joel Greenberg —
Thank you, Dr Tom Habermann, for years of lymphoma research. I admire your expertise in the field, open-mindedness to new ideas and sense of humor; you make all feel welcome and heard. Thanks for being a champion for the lymphoma community!

— Janice Haines —

Thank you, Dr Tom Witzig, for years of dedicated service to patients and research. You are knowledgeable, humble and curious. When in meetings and discussions, you are always fully present and open to hearing what others have to say. I am fortunate to have you as my hematologist, and the world is fortunate to have you as a lymphoma researcher!

— Janice Haines —

We welcome the opportunity to continue to applaud the foresight, dedication and magnificent work of our dear friends, Barbara and Jerry Freundlich, in the battle against lymphoma.

— Marcia & Michael Korotkin —
To the Freundlichs — Truest of Heroes.

— Mitch Orfuss —

I am nominating Dr. Brian Till, who has created the first fully human CAR T-cell therapy for patients with lymphoma at the Seattle Cancer Care Alliance. The clinical trial is registered with clinicaltrials.gov as NCT03277729.

— Nancy Ottman Press —

For Chike Springer.
You taught us how to fight with a smile, stay positive and always be thankful. We will continue to bring your dream of helping others to life.

We love you and will miss your smile forever.
— The Springer Family —
Bruce Cheson is a giant in the field of lymphoma and lifeline to his patients.
We thank you for the guidance, support, kindness and humor you have shown us and look forward to years more of friendship.

— Lisa Taverna and Gary Ford —

We are honoring our personal Hero,
Dr. Morton Coleman.

— Vinda & Kenneth Vaughan —
THANK YOU
