

**The Lymphoma Research Foundation Seeks Medical Professionals  
to Connect Patients with Worldclass Free Resources**

**Volunteer Title:** Lymphoma Research Foundation Community Liaison

**Location(s):** Your community or professional medical community

**Time Requirements:** 2 hours/month, flexible options; 30-minute virtual training required

**About the Foundation**

Located in New York City, the Lymphoma Research Foundation is the nation's largest non-profit organization devoted to funding innovative research and serving the lymphoma community through a comprehensive series of education programs, outreach initiatives, and patient services. The Foundation is dedicated to finding a cure for lymphoma, the most common form of blood cancer, by funding biomedical research and supporting the next generation of lymphoma researchers. With the guidance of a prestigious Scientific Advisory Board (SAB), which is comprised of 45 of the world's leading lymphoma experts, the Foundation invests in the research and scientists which have the greatest potential to improve our understanding of lymphomas and lead to improved treatment options for patients. To date, the Foundation has funded more than \$80 million in research focused on the origins and treatment of lymphoma.

Through comprehensive disease guides and publications, in-person conferences, and online resources, the Foundation provides education for people with lymphoma, as well as their loved ones and caregivers. A robust suite of patient services provides direct support to people who have received a lymphoma diagnosis. These services include the national Lymphoma Helpline, a Clinical Trials Information Service, Lymphoma Support Network, and patient aid grant program. An industry leader in digital communications, the Foundation maintains a strong presence on multiple social media platforms and has won national awards for its innovative use of social media to educate cancer patients. The Foundation developed a first of its kind mobile app for people with lymphoma which was recognized by Apple as one of the best medical apps in the country. The Foundation also provides continuing medical education programs designed to increase the knowledge, skills and performance of healthcare professionals who treat and care for people with lymphoma.

## About the Opportunity

The Foundation is pleased to launch its inaugural nationwide team of **Lymphoma Research Foundation Community Liaisons** and seeks oncology-focused medical professionals to connect patients with free resources. Oncologists, nurses, patient navigators, oncology social workers and all professionals closely connected to the lymphoma community are encouraged to join this important team.

## Goal

This exclusive team of **Community Liaisons** will connect everyone impacted by a lymphoma diagnosis with free resources – disease-specific fact sheets, a peer Lymphoma Support Network, Financial Aid program, Stories of Hope, webcasts, Lymphoma Helpline and Clinical Trials Finder. The Foundation offers worldclass resources when patients and survivors need them the most and this new team will make sure resources are available at their location.

## As a Lymphoma Community Liaison, you will:

- Serve as the Foundation's representative within your healthcare institution
- Enjoy networking opportunities with oncology professionals nationwide
- Attend a 30-minute virtual training to become familiar with Foundation resources
- Ensure that Lymphoma Research Foundation materials are shared with survivors & care partners
- Provide feedback and check in with Foundation staff twice/annually
- Be fully supported by Foundation staff as we work to support the lymphoma community together

## Suggested Activities

- Ensure Foundation materials are available (if possible) at your institution/patient resource center
- Encourage survivors and care partners to utilize Foundation resources
- Share Foundation and patient materials with colleagues, serve as staff point person
- Explore tabling or similar promotional opportunities within your network

## Optional:

- Connect Foundation staff to your institution's communications team for possible collaboration and amplifying resources via social media
- Repost or share monthly social media messages via your personal social media (*once/month*)
- Share opportunities to give back and fundraise to support the Foundation's mission

## Benefits

Utilize your professional talents to connect survivors and care partners with care and support when they need it the most. Connect with a nationwide network of fellow healthcare professionals and proudly share your social media 'Lymphoma Research Foundation Community Liaison' badge with your personal and professional networks.

## Qualifications

Credentialed healthcare professional, medical students are welcome to apply

**Candidate Profile**

Physicians, nurses, physician assistants, oncology social workers, patient navigators and all oncology-focused professionals are encouraged to apply to be part of this important patient-centric program.

**Interested applicants may submit resume and cover letter for consideration to Dana Bork via email [dbork@lymphoma.org](mailto:dbork@lymphoma.org). Please include “Community Liaison” in the subject line.**
